

SHUTTLECOCKS

SHUTTLECOCKS

Speeds

Speeds indicated here are set according to VICTOR standards.

The speed gradings are great reference for choosing shuttlecocks for different temperatures and conditions.

For areas of higher altitude, lower speeds are suggested.

76 - 32±3.5°C	77 - 25±3.5°C
78 - 18±3.5°C	79 - 11±3.5°C

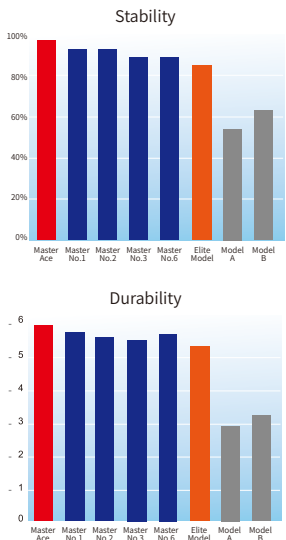

MASTER ACE

THE MASTERPIECE SHUTTLE

It takes 97 days, 218 step processes, and elimination of 31,984 feathers to complete a MASTER ACE.

Approved by the BWF for international play
Product part of BWF Preferred Equipment programme

- REMARK Approved as Official Shuttlecock for the
Badminton Asia Confederation (BAC).

MASTER NO.4

- UNIT Dozen
- FEATHER Goose Feather
- HEAD Composite Cork

Nylon Shuttlecocks

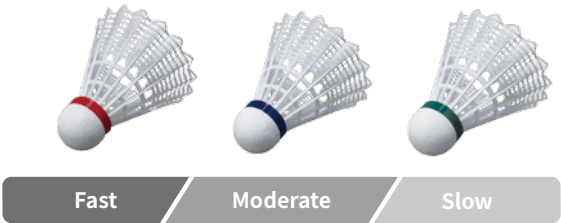

Our refined manufacturing process allows VICTOR nylon shuttles to perform closer to feather shuttles with a more consistent trajectory and steady speeds when compared to models of other brands.

Nylon Shuttle Skirts

The nylon skirt is made with 100% nylon and is very stable allowing the shuttlecocks to perform similar to the feather ones.

Shuttle Heads

The shuttlecock heads are made of soft corks with adjusted proper balance which enables better accuracy and fast turnaround.

- CHAMPION NO.1**
- UNIT Dozen
 - FEATHER Duck Feather
 - HEAD Composite Cork

- CHAMPION NO.3**
- UNIT Dozen
 - FEATHER Duck Feather
 - HEAD Composite Cork
